GOODRICH AWARDS \$1000 TO 1916 RACING CHAMPIONS

The A. A. A. is to be the sole arbitrator and First, Second and Third Speed champions will be chosen by its rules. Goodrich Silvertowns or any other make tire may be used for the events that this large concern is, unsolicited, offering these awards for. Following is a letter stating their view on the matter.

Akron, Ohio, May 23.—Although Goodrich Silvertown Twin Cable Cord Tires are already the accepted tire of the racing driver, and are bought and paid for in every case, a generous recognition of the selection by outright purchases by drivers of racing cars of Silvertown Twin Cable Cord Tires, for use in contests under no influence of money consideration for so doing has just been announced by the B. F. Goodrich Company.

The American Automobile Association, the official association of car owners of this country, has prepared rules to govern the determination of the actual champion for the season of 1916 and will be the sole arbitrator regarding such award.

The Silvertown Cord Tire is universally recognized as the type of construction insuring the best results in speed contests and is almost universally used by racing drivers. There is no reason why the Goodrich company should extend any award for the purpose of inducing the use of Silvertown Tires, and it does not, but gives outright without a string tied to it of any kind, whatsoever, Ten Thousand Dollars, divided between the authoritatively determined champion, the second and third in order, quite irrespective of the make or kind of tire that may be used by said winners.

Discrimination Against Deming

The following petition is being circulated by Secretary H. A. Lane and is being universally signed. A similar petition will also be signed by merchants at Mogollon.

WE, the undersigned merchants and citizens of Deming, New Mexico, herewith protest in writing to the following ruling made by Second Assistant Postmaster General, Otto Praeger, and addressed to the Postmaster at Deming, New Mexico, prohibiting the post office at Deming from accepting and forwarding from any consigner more than two hundred (200) pounds of parcel post to any one consignee:

"A two hundred (200) pound limitation be placed upon all shipments and that the amount to be accepted from any one person or concern addressed to the same party or company be not in excess of two hundred (200) pounds daily."

We find upon investigation that the above ruling is a rank discrimination against Deming merchants, making it impossible for them to compete with merchants in other cities included in the second zone, as well as cities outside of the second zone, as established by the Post Office Department.

We also find upon investigation of shipments from various points within and without the second zone that large consignments from Albuquerque and El Paso are being shipped to Mogollon by a combination use of railway freight and the parcel post system. There is no weight limitation attached to these shipments from post offices within the limits of the second zone.

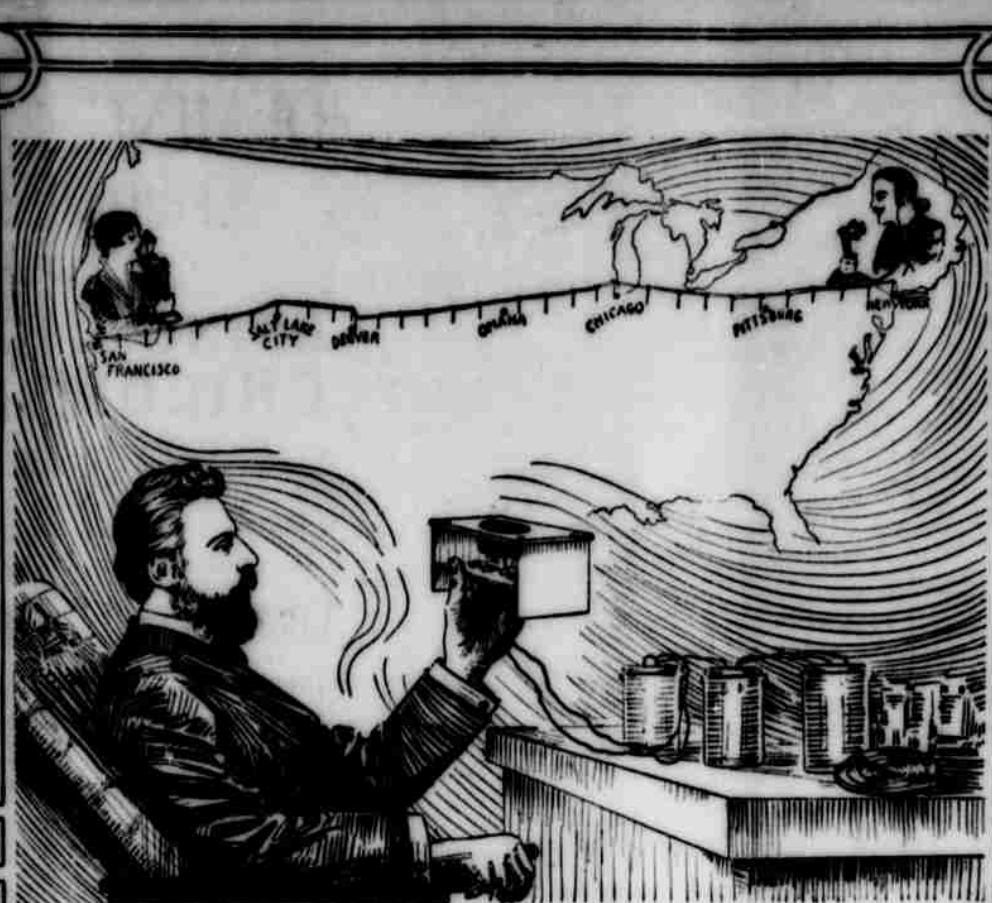

Under such existing condition, we merchants and farmers of Deming, being limited to two hundred (200) pound shipments each day, are unable to compete in this marketing field, which is nearer and rightfully belongs to Deming.

The merchants in Mogollon are obliged to pay more for their shipments than if Deming were given the same privileges of the parcel post system as Las Cruces, Socorro and other post offices within the second zone.

We do not believe the Post Office Department wishes to be partial to one or two sections, and in so doing, sacrifice the prosperity of Deming and vicinity. The discrimination against Deming is unwarranted and the forcing of higher prices upon the merchants of Mogollon is unfair to them.

Summing up our complaint, the parcel post system is favoring some post offices and is discriminating against Deming. Therefore, we of Deming respectfully but firmly request that the two hundred (200) pound limitation placed upon the Deming post office be removed immediately.

We also instruct our Senators, A. B. Fall, and Thos. B. Catron, and Representative B. C. Hernandez, in Congress, to immediately take this matter of adjustment up with second assistant postmaster general Otto Praeger, and attend to seeing that the discrimination against Deming be removed at once.

Telephone Standards

Forty years ago Alexander Graham Bell succeeded in transmitting the sound of the human voice over a wire; and while men scoffed at the invention and laughed the inventor to scorn Bell's imagination even then pictured the telephone in universal use.

His was the master mind, that penetrated the future and visualized an ideal—One System, One Policy, Universal Service.

Since then, time has developed certain standards—standards of plant construction, standards of equipment, standards of service efficiency.

Standards of our duty to the public have existed from the beginning of time; for they are founded on principles of equal justice and fair dealing. This means that our service must be as nearly perfect as human skill and ingenuity can make it, and that our rates must be fair, equitable, and as low as a fair return upon investment will permit.

It means courteous consideration of the public's needs, and solving the problems growing out of such needs in the light of the best engineering and other expert skill which the art of telephony has developed.

Such a policy commends itself to public favor, public respect and public confidence, without which no public utility can long exist.

The Mountain States Telephone and Telegraph Co.

Announcements

For Treasurer

I announce myself as a candidate for the nomination for the office of County Treasurer of Luna County, subject to the decision of the Democratic primaries.

Edgar Hepp.

I announce myself as a candidate for the nomination for the office of County Treasurer, subject to the decision of the voters at the Democratic primaries.

NO REASON FOR IT

You are Shown a Way Out.

There can be no reason why any reader of this who suffers the tortures of an aching back, the annoyance of urinary disorders, the pains and dangers of kidney ills will fail to heed the word of a resident of this locality who has found relief. The following is convincing proof.

Juan Mendoza, mason, Las Cruces, N. Mex., says: "I have had to bend over and do heavy work in an awkward position. My back got so bad that I couldn't straighten and I had to quit work. My feet were so swollen I couldn't stand. I had headaches and dizzy spells and felt miserable in every way. Doan's Kidney Pills cured me."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same Mr. Mendoza had. Foster-Milburn Co., Props., Buffalo, N. Y.
